

CISEL Informatique SA Expands its Partner Network with Rubrik to Offer a Wide Range of Cloud Backup Services to its Customers

The volume of digital data generated by businesses has grown exponentially in recent years. They are the main concern of companies operating in a constantly changing technological environment. To meet this challenge, CISEL is partnering with Rubrik, the Cloud Data Management Company, to offer a next-generation solution that includes optimal security conditions.

While CISEL announced its partnership with Nutanix last March, the company is strengthening its position on high-performance backup solutions facilitating the exploitation of hyperconverged solutions. This partnership with Rubrik will enable organizations in French-speaking Switzerland to simply manage their backup infrastructure with solutions deduplicated in real time in the Cloud and on premises.

Rubrik simplifies data management for the enterprise, providing a consumer-grade user experience and policy-based automation. Built for infinite scale and easy cloud integration from the beginning, Rubrik allows enterprises to easily and securely take their data from on-premises to cloud.

Rubrik offers CISEL an innovative platform upon which it can deliver strategic value to customers in the Romandie area of Switzerland. Leveraging Rubrik's technology, CISEL can deliver simplified data management across on-premises and cloud environments in one software fabric, enabling enterprises to securely mobilize their apps, anywhere.

"Companies need to have access to their data anytime, anywhere. With Rubrik's Cloud Data Management platform customers can manage all their data on one platform," said Gerry Solenthaler, Country Manager of Switzerland at Rubrik. "I'm pleased to welcome CISEL as the newest member of our channel family in EMEA. We are excited about the big opportunity we have together in bringing our unique solution to the customers of CISEL."

About de CISEL

With a turnover of over 18 million CHF, CISEL is a Swiss IT provider active in IT outsourcing, the integration of SAP ERP systems and cloud solutions for SMEs. Thanks to over 80 employees, CISEL is the partner of choice of industrial customers. The range of services provided by CISEL covers the entirety of its customers' IT needs. Resolutely customer-oriented, CISEL works hand-in-hand with IT market leaders to offer the best of technology.

About Rubrik

Rubrik delivers a single platform to manage and protect data in the cloud, at the edge, and on-premises. Enterprises choose Rubrik's Cloud Data Management software to simplify backup and recovery, accelerate cloud adoption, and enable automation at scale. Rubrik's run-anywhere, scale-out architecture is built to empower IT departments today and in the future, reducing total cost of ownership while enabling infrastructure flexibility for a multi-cloud world.
